DISAPPEARANCE OF A YOUNG MAN

Friends of Richard Dean Are Alarm-
ed That Some Harm Has Befell
Him.

LEFT HERE LAST SATURDAY

Young Englishman, Who Has Made
Rushville His Home, Leaves,
But Leaves no Word.

Richard Dean, a young man twenty-two years of age is missing from the place where he has been staying in East Sixth street, since last Saturday night and all efforts to get any trace of him have proved fruitless. His friends fear that some harm has come to the young man, but this is probably an unfounded fear, for in all probability he is on his way back to his old home in England.

Last summer the young Englishman arrived in Rushville almost penniless and Stewart Beale—who was born "once" under a British flag—on hearing of the Briton's presence here hastened to assist him. Beale secured a position for him in the I. & C. car shops and later in the furniture factory, where he worked until last Saturday. The young man was getting along fine and liked both this city and the many friends he soon made. He had sailed from home with but little money and had tramped most of the way from New York City to Rushville. Dean was taken ill about two months ago and his illness developed into appendicitis. He was operated on and soon was able to be at work again. The boy had good habits and united with a Sunday school class here. He made his home with Mrs. Farley and was a favorite with her.

The puzzling part of his disappearance is the fact that he never dropped the least intimation that he was going or displayed any signs of home sickness, in fact, he had several things in mind which he contemplated doing and of which he talked freely within the past week. He had but little money. It is possible that he left intending to go back to New York on the same plan he came west and from thence sail for his old home, near Liverpool.

"Home-Made" Story Starts Tomorrow

In tomorrow's issue of the Daily Republican will appear the opening chapters of "A Latter Day David and Goliath." The background for the story is laid around a county option fight and therefore much of the material is quite familiar to local people—possibly to the detriment of the story. But it must be remembered that the story was written to be used elsewhere and the scenes and conditions attending a county option fight would be of more interest to those who were not the principals in this little drama of life. However, enough interest has been found in the story to warrant its publication. It starts tomorrow and will run the remainder of the week.

GETTING THE DOUGH.

The Greenfield Tribune says of a former Rushville baker: "W. S. King has purchased the opposition bakery owned and operated by Thos. Bovel. It is Mr. King's present intention to dismantle the bakery, sell the machinery and enlarge the capacity of his own bakery. He may purchase new and improved machinery for his plant and make it modern and up-to-date in every particular."

FOR ANNUAL CAMP MEETING

Everything in Readiness For Heavy Recruit Summer Meeting.

The annual camp meeting of the First Heavenly Recruit Church will begin Saturday July 17th in Dewey's Park in the southwest part of the city says the Greenfield Tribune. They have the big tent already erected and everything is in readiness for the big meeting which is always a summer feature. The Rev. James Davis of Indianapolis will have charge of the meetings and will be assisted by several other ministers from Indianapolis, Rushville, Shelbyville and other cities.

ANSWER CALL OF OLE SWIMMIN' HOLE

Parents Cannot Be Too Careful
About Cautioning Their Boys
About the Dangers.

NONE SHOULD SWIM ALONE.

In these sizzling summer days the lure of the water for the small boy is overmastering. And every grown man feels again the thrill that once was felt at the chance to "go in swimmin'" on a hot day.

Parents cannot be too careful, yet even they cannot always keep their boys from the river. Swimming and diving are healthful exercises for boys and young men, though attended boys and young men, though attended thing would be to give the boys every reasonable chance to play in the water in warm weather, but they should be so protected by guards that accidents should be impossible. But society is not yet that far advanced in America though it is in many parts of Europe. Life is yet held too cheaply. In the meantime let it be repeated, parents can not be too careful in looking after their young sons, during the hot months for the lure of the "ole swimmin' hole" is calling, calling, and may be, calling them to their death.

HELD FOR RANSOM BY REVOLUTIONISTS

Miss Ellen Stone May Recite Ex-
periences on Chautauqua
Platform Here.

A LECTURE WOULD DRAW GOOD

The program committee of the Chautauqua are working continually in an effort to put on the best class of attractions ever offered in any previous years. They already have secured several very high class numbers and are considering the proposal of Miss Ellen Stone for a lecture.

It will be remembered that Miss Stone while a missionary in Bulgaria was captured by some Macedonian revolutionists and held for a ransom for several months. The ransom was finally paid after she had passed through numerous frightful experiences. She recites her treatment at the hands of the bandits in her lecture, which would no doubt be a very interesting attraction and one which would draw large crowds. The committee can secure the number and now have it under consideration.

WIFE TO HIM IS A DEAD LETTER

Postmaster Jimmy Jones of New Castle Files Suit For an Absolute Divorce.

HAD SOME STORMY SCENES

When Wifey Returned From an "Ex-
tended Stay" in the East—Sec-
ond Suit Instituted.

Many Rushville friends of Jimmy Jones, New Castle's popular postmaster, will be surprised to learn of his domestic troubles. He has instituted suit for divorce in the Henry circuit court. The New Castle Courier says, in part of the difficulty: "Postmaster James H. Jones has instituted suit for divorce from his wife, Mary, and she departed Saturday, presumably for Oshkosh, Wis., where her mother and step-father, T. M. Randle, are residing.

The separation came about after several stormy scenes and the complaint, which was taken off of file immediately after notation on the court docket, alleges cruel and inhuman treatment. The claim is made by the plaintiff that the defendant was fussy and made life miserable for him.

About four years ago the parties to this suit separated and a divorce action was instituted by Mr. Jones. After hanging fire for some time the difficulty was patched up and the couple began all over again. At that time one of the charges made was that the defendant tried to kill the plaintiff with a butcher knife before the honeymoon was over.

"Mrs. Jones recently returned from a three months' trip to Chicago, Wisconsin, Boston, Philadelphia and other points. At that time there were mutterings that all was not well. The final disturbance, however, occurred last week and culminated Saturday when attorney Paul Brown was retained by Mr. Jones to bring the action. Mrs. Jones left with the full knowledge of the suit, she having been cited to appear in court at the proper time as defendant. It is not known whether she will fight the case or not."

GOVERNOR TO STOP CHEAP EXCURSIONS

Informs Prosecuting Attorneys That
he Will Not Honor Requisition
Papers Unless Urgent.

IN CASE OF WIFE DESERTION

Governor Marshall has sent circular letters to the prosecuting attorneys throughout Indiana, one of which was received by Prosecutor John Cheney and Deputy Prosecutor Wallace Morgan, in which he informs them hereafter no requisitions will be issued in wife desertion cases unless it is shown that the desertions were the results of quarrels or other difficulties and that the husband intends remaining away permanently. In no case will wife desertion requisition papers be issued where an action for divorce has been filed by the deserted or alleged deserted wife.

The purpose of this order is said to be to stop the practice of having wives file desertion cases against their husbands for the mere purpose of procuring the husband's presence at divorce trials of the other civil actions.

DAMAGE SUIT IS NOW IN COURT

Rollo Fisher Asks \$3000 From I. & C. Traction Company For Injuries Received.

HEARD BEFORE JUDGE SPARKS

General Counsel Claude Camborn on Case—Venued From Marion County to Shelby.

The case of Rollo Fisher, of near Five Points, against Charles L. Henry as receiver for the I. & C. traction company for damages in the sum of \$3,000 for injuries received when his wagon was struck by a car near his house, September 30, 1908, was on trial Monday in the Shelby Circuit court before Judge Sparks, says the Shelbyville News. All the evidence was heard Monday and the jury will get the case early today.

The plaintiff is represented by Attorneys Clark, of Indianapolis, and Wray & Campbell, of this city, and the defendant by Attorneys Claude Camborn of Rushville, and Hord & Adams of Shelbyville.

At the time the accident occurred Mr. Fisher was driving across the track near his home with a hay ladder. The ladder caught against a gate post and before he could get out of the way he was struck by an I. & C. car, which he alleges was running without a headlight. His wagon was demolished, both his horses were crippled and he was so severely hurt that it was feared for a time his injuries would prove fatal. The accident occurred about seven o'clock in the evening.

NEW INVENTION FOUND.

Automobilists will now wipe away their tears and sit up and take notice, when they hear of the unique invention which has been tried and proven successful.

It is truly an innovation and one which will win for the inventor a warm place in the hearts of all who now own or ever will own an automobile.

And the truth of the whole matter is that a Rushville man is the originator of the novel idea, and is thinking seriously of applying for a patent. It came about in this manner. John Power and Wilf Jay, with a party of friends were out in their automobile, west of the city yesterday afternoon on business. On returning home, when they were about half way between Morristown and Reedville the inner tube in one of the tires bursted. The blowout was soon repaired with a new inner tube and they started on their way again. They had not gone over a mile, when the same thing happened again and was fixed. When it happened the third time and the last inner tube was used, the men began to look serious. The last inner tube blew out and then the genius of John Power sprang to the rescue. He climbed a fence over into a field of oats and gathered an armful. This he stuffed tight in the tire until it would easily hold up all of the occupants of the machine.

They road on to the next town without injuring the rim and there telephoned to Rushville for another tube. Mr. Power says that the more matured the oats is the better it will answer the purpose. Wheat or grass could be used instead.

HAS BEEN VERY BUSY MAN

Coroner of Fayette County Has Had Eleven Tragedies.

Coroner Spicely has been the busiest coroner since he took his office of anyone who ever served Fayette county in a similar capacity, says the Connersville Examiner. Since taking his office on the first of last January, Mr. Spicely has been called upon to inquire into the deaths of eleven persons, including Vibert Winfrey, who was drowned Sunday.

EXPERTS SAY WHEAT CROP IS A FAILURE

Elevator Men Claim That it Will Not Average Over Fifteen Bushels to the Acre.

IS DUE TO MANY PARASITES

The wheat cutting is on in full blast in Rush county. Farmers in all parts of the county pulled out their rusty binders yesterday and oiled them in preparation for the several days run.

All of them have complaints regarding the damage done by the green bug and on account of the wet condition of the ground. The muddy ground necessitates the use of an extra horse or two to each binder and even at that the work will be more than ordinarily heavy for the animals.

Several elevator men, who have been travelling over the county recently, say that the wheat will not average over fifteen bushels to the acre and that the crop is really a failure. Previous reports have been to the effect that it would be nearly up to the average. The failure, it is said, is due to various parasites on the stem and head.

BAND MASTER WILL LEAVE RUSHVILLE

Prof. Cushing Will Leave This Week
For Illinois to Engage in Similar Work.

WILL BE SORELY MISSED HERE

Prof. J. A. Cushing, the bandmaster will leave Rushville this week for some point in Illinois, where he goes to instruct a band. He will be sorely missed as his work here was of the highest order and the two bands under his direction and instruction here, were doing fine. Numerous reasons are given by Prof. Cushing for his quitting the city.

ELECT OFFICERS FOR YEAR

Tri Kappas Met With Miss Alice Winship Last Night.

The members of the local chapter of the Tri Kappa sorority were entertained by Miss Alice Winship at her home in West Fifth street, last evening. During the short business session the following officers were elected for the ensuing year: Helen Campbell, president; Florence Fraze, recording secretary; Mary Lewis, treasurer, and Jean Bishop, corresponding secretary.

SIZZLING HOT PERIOD IN JULY

Hicks Has Framed up For Humanity For Next Month—Opens With Fireworks.

A HOT OLD TIME IS PROMISED

Preacher-Prophet Says July Will be a Month of Sweltering Heat And Storms.

Hicks is evidently standing in with the ice man for he promises a month of sizzling hot weather for July. Here are some of the things he says:

Very high temperature will prevail from about the 2d to the 5th, causing a warm wave to pass eastwardly over the country on or about those days. From the 3d to the 6th, low barometer and blustering, violent storms will visit many localities in their eastward sweep over the country. While we do not look for a heavy general rainfall in July, the combined forces of Venus and Mercury will naturally cause some violent local downpours. As the storms move to the eastward, the barometer will rise west of the storm areas, bringing cooler, westerly winds and fair weather; but in advance of these changes most parts of the country will have blustery to violent thunderstorms, say about the 3d to 5th. The 4th promises rain and thunderstorms for many localities.

On and touching the 9th storms will reach their crisis. A sharp change of rising barometer, with cooler winds from the west will bring up the rear of these storms. The Mercury influence will tend to prolong cloudiness and threatening weather between the storm periods.

A regular storm period is central on the 14th, extending from the 12th to 17th.

The high temperature and storms may not reach a final crisis until the conjunction of the moon with earth and sun on the 17th. This period promises the heaviest rains, perhaps, of any period in this month. After decided storms and the barometer begins to rise, change to cooler will follow for a few days. A seismic period is central on the 11th, extending two or three days before and after that date.

We do not look for general diffused rainfalls throughout the country, although the Venus period being central on the 22d covers the whole month, and is as a rule attended by heavy rains. We rather look to this time, and at other July periods, for local cloudbursts over narrow, scattering localities with wide, intervening sections without normal, or sufficient rainfall.

A regular storm period is central on the 26th, extending from the 24th to the 28th.

There can be no question but atmospheric tides follow the moon in its declinations north and south, hence when the moon is south, the streams or "rivers" of cooler air flow southward from polar directions, especially after a series of heavy, Venus thunderstorms. There is prospect for such results, progressively from about the 27th to 30th.

Despair and Despondency

No one but a woman can tell the story of the suffering, the despair, and the despondency endured by women who carry a daily burden of ill-health and pain because of disorders and derangements of the delicate and important organs that are distinctly feminine. The tortures so bravely endured completely upset the nerves if long continued.

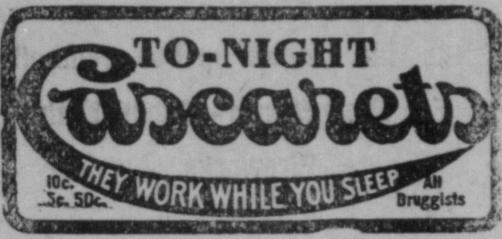

Dr. Pierce's Favorite Prescription is a positive cure for weakness and disease of the feminine organism.

IT MAKES WEAK WOMEN STRONG, SICK WOMEN WELL.

It allays inflammation, heals ulceration and soothes pain. It tones and builds up the nerves. It fits for wifehood and motherhood. Honest medicine dealers sell it, and have nothing to urge upon you as "just as good."

ASK YOUR NEIGHBORS. They probably know of some of its many cures.

If you want a book that tells all about woman's diseases, and how to cure them at home, send 21 one-cent stamps to Dr. Pierce to pay cost of mailing only, and he will send you a free copy of his great thousand-page illustrated Common Sense Medical Adviser—revised, up-to-date edition, in paper covers. In handsome cloth-binding, 31 stamps. Address Dr. R. V. Pierce, Buffalo, N.Y.

Kaiserin Among the Roses.
A delicate compliment was recently paid by Kaiser Wilhelm to the kaiserin in the new public garden which is about to be opened in Berlin's park, the Thiergarten. He has ordered a new monument to the empress, which is to be surrounded by a wide expanse of 10,000 of the choicest roses. These will be provided by the village of Britz, which supplies over a million roses annually to the capital.

Maude Adams as Joan of Arc.
If angel voices speak to mortal ears,
If heavenly visions shine for earthly eyes,
They whom such wondrous messages sur-
prise
Are chosen from the loved ones of the
spheres.
When she to whom the knightly shade
appears
Listens entranced and lowly then replies
In measured words whose music never
dies
Here is a faith that knows no human
fears.
O mystic maid, courageous and divine,
This thy reincarnation shall endure!
Devoutly dauntless, passion warmed and
pure,
To wake the world the privilege is thine,
And echoes of thy thrilling girlish voice
Linger to make us love, aspire, rejoice.
—Henry Tyrrell in New York World.

NO CRACKERS IN THIS FOURTH

With Five Bands, Parade and Salutes Cleveland Expects Sane Celebration.

The same Fourth of July committee is ready for its accidentless, fire-crackerless Fourth in Cleveland. O. It is planned to make the parade a big sane Fourth feature. The parade will disband at the public square, where school children will sing patriotic songs.

Pageants depicting important events in American history will be arranged for, and national and patriotic organizations in uniform will be asked to join in the parade. Four or five bands in the public square will play the same airs with one leader to direct all. At the close of the singing the flag raised according to military regulations at sunrise, will be sent up to the top of the staff.

Immediately following this a salute of thirteen guns will be fired by the military on the lake front.

VOCAL SANDS AND STONES.

Prospector Discovers Strange Singing Sands in California Mountains.

Singing sands and speaking stones are reported by Henry Heinell to have been discovered by him while on a prospecting trip in the Santa Monica mountains, says a Los Angeles (Cal.) dispatch. According to Heinell, these "matins of the damned" are at times not unlike the notes of a melodeon or a pipe organ. Again they sound as if a chime of bells were rung in the distance, and just after sunset or at dawn of day the sound might be compared to the string of the harp.

Heinell ascribes the phenomena to the presence of hollow grains of sand. He says that when such sands were stepped upon or rubbed together the action was accompanied by the singing sounds.

Provision For Future of Babies.
"What right have we to save a baby's life," asked Dr. Henry B. Favill at a recent luncheon in Chicago given by the Illinois congress of mothers, "if we don't provide for its future?"

"We have no moral right," he continued, "to get children up to adolescence and then neglect them. The ills that beset them then are just as perilous as those which menace their early days. In accomplishing one thing we are not diminishing our own labor or our subsequent care. It is the business of the commonwealth to take care of children through their various stages to maturity. The playground problem is one for infancy, and when it is accomplished others present themselves."

PIGEON POST FOR CUPID.

Cohen Thinks He Can Beat Mail System by One Hour.

David Cohen, who was recently called to Winsted, Conn., from New York to manage a clothing business, proposes to keep in communication with his fiancee in the metropolis by carrier pigeon instead of by mail. She has received a dozen pigeons for that purpose, one of which took a prize at a recent show in Madison Square Garden, New York.

By rail to New York is 118 miles, and it takes four hours for the fastest trains to get a letter there. By air line the distance is considerably shorter, and Cohen has figured that he can beat Uncle Sam's delivery system by more than an hour.

HIGH-O-ME

That's the Way to Pronounce Hyomei, the Money-Back Catarrh Cure.

As doubt exists in the minds of many readers of the Daily Republican let us say that the above is the proper pronunciation of America's most wonderful catarrh cure.

F. B. Johnson is the agent for Hyomei in Rushville and he will sell you an inhaler, a bottle of Hyomei, and full instructions for use, for only \$1.00.

And if it fails to cure acute or chronic catarrh, asthma, bronchitis, croup, hay fever or coughs and colds, he will give you your money back.

The person who suffers from catarrh after such an offer as that, must like to snuffle, spit and wheeze, and be generally disgusting.

Read what Mr. Lowe, a respected citizen of Allegan, Mich., says of Hyomei:

"I have used Hyomei for a case of nasal catarrh which had bothered me for a long time. I can say that Hyomei killed the germs of the disease and gave me the much sought and needed relief. From this experience I know Hyomei to be a reliable remedy, and I give it the praise and recommendation that it deserves." — G. F. Lowe, R. E. D. No. 7, Allegan, Mich., September 19, 1908.

MI-O-NA Cures Indigestion

It relieves stomach misery, sour stomach, belching, and cures all stomach disease or money back. Large box of tablets 50 cents. Druggists in all towns.

Mr. Wolcott is pleased to announce to his customers that he has secured the agency for Zemo, the best known remedy for the positive and permanent cure of Eczema, Pimples, Dandruff, Blackheads, Piles and every form of skin or scalp disease. Zemo gives instant relief and cures by destroying the germ that causes the disease, leaving a clean, healthy skin. See display and photos of cures made by Zemo at F. E. Wolcott's drug store. CORONER'S JURY SPLIT VERDICT

Conclusion In Woodill Case
Not Unanimous.

DIVIDED ON A FINE POINT

Was "Lame Bob" Eastman the Murderer of Pretty Mrs. Woodill, Or

Was He Merely An Accessory To the Murder—East Shore Jury Could

Only Reach a Compromise Verdict On a Point Which May Never Be Satisfactorily Cleared Up.

St. Michaels, Md., June 29.—With the compromise verdict of the coroner's jury that Robert E. Eastman either killed or was accessory to the murder of Edith May Woodill and the declaration of States Attorney Taylor that he was through with the case, the strange dual tragedy which has for nearly a week focused the eyes of the entire country upon this little out-of-the-way hamlet of Maryland's famous eastern shore, has become a closed incident.

Four of the twelve jurors who listened to the testimony at the reopened inquest refused to sign the verdict and the words "or accessory to the crime," and bluntly accused Eastman of the murder. None of the four dissenting jurymen would say that any other person than Eastman was responsible for the girl's death. They merely wished to protest, they said, against the manner in which the inquiry was conducted, declaring that much available evidence was not adduced.

The letter left by Eastman for his wife in which he declared that Mrs. Woodill had been killed by a woman in a jealous frenzy was not read to the jury. The officials seemed to take it for granted that all of the evidence unearthed since the finding of the body was well known to the residents of the community and that it was unnecessary that it should again be rehearsed. There was just a bit of petty politics mixed up in the verdict too, for some of the members of the jury have been bitter political enemies in Talbot county affairs.

Much of the testimony given before the jury was deeply interesting and made clear many points in the tragedy which heretofore have been matters of conjecture. The mysterious launch which was reported as having been seen near the bungalow on the Sunday following the disappearance of Mrs. Woodill, did not materialize in the evidence adduced. Residents of the neighborhood of the bungalow were piled with questions as to the launch, but no one had seen it.

No one was seen about the bungalow on the Sunday when Mrs. Woodill was slain. There was no evidence that any one other than Eastman could have been responsible for the crime.

And the final theory of the authorities is this:

That Eastman was in need of money; that he probably had been getting money from Mrs. Woodill for some time; that he undoubtedly knew something of her past life and that he had been blackmailing her; that he attempted to continue this practice, and that the woman rebelled intimating that she, too, had found out certain things about Eastman, and that if driven to it would expose him.

Eastman's dread of serving a term in the penitentiary was well known. His wife has said that he told her he would rather commit suicide than be confined in prison. The pawning of the jewelry the authorities set down to the desire of Eastman to get away. When cornered the man decided that his race had been run, and that he had better make an end to it all. As to why Mrs. Woodill went to the bungalow there was no evidence.

CORSET STOPPED BULLET

Narrow Escape of a Michigan Girl From Death by a Jealous Lover.

Niles, Mich., June 29.—Crazed with drink and insanely jealous, Bernard Clark, twenty years old, attempted to murder his sweetheart, Henrietta Starke and Elmer Broome, her companion, of Richmond, Ind., by firing two shots at them. One bullet struck the girl just above the waist, knocking her down, but her corset saved her life. The second shot went wild. Clark has fled.

Killed on Eve of Wedding.

Paducah, Ky., June 29.—While he was talking over the telephone to a young woman, lightning struck the wire and instantly killed Prof. Samuel B. Phelps at Sharpe, Marshall county. The young woman was not hurt. He was twenty-six years old and principal of a public school at Albion, Okla., and was spending the summer with his mother here. He was engaged to be married to Miss Pearl Roper of Fulton, Ky. She arrived too late to see him alive, and is grief-stricken.

JULY 4TH MUSIC

Patriotic Song for July 4th Specially Selected for Independence Day

This song was written by an officer of the American Navy during the War of 1812. It being very popular, although long out of print, is now republished in compliance with the request of many officers in the United States Navy and Army.

This song of patriotism and chivalry at its first production became eminently popular, and whenever the song has been sung, there it has awakened the patriotic zeal, admiration of heroism and veneration for the memory of those whose fidelity and love of home and flag and native land garnered the undying love of a grateful people.

It is with extreme pleasure that we give to our readers in our next Saturday's issue this rare old patriotic gem. We were very fortunate in being able to secure this number, and we are sure the selection will meet with popular favor.

This song, words and music will appear in Saturday's issue of the Daily Republican

This song will be sung Saturday night by Miss Iva Brown at the Star-Grand, and Miss Ida Liddle at the Vaudet.

"Open shop" order of the American Sheet and Tin Plate Company will become effective, when 10,000 workmen in the Pittsburg mills are expected to quit work.

Quinquennial congress of the International Council of Women, in session at Toronto, will come to a close.

THURSDAY.

Annual rowing regatta between crews of Harvard and Yale will take place on the Thames at New London, Conn.

Law providing for an eight-hour day for workers in British coal mines becomes effective.

State-wide prohibition law becomes effective in Tennessee and will result in the closing of all saloons in the State.

Second International Conference for the Revision of Nomenclature of Diseases and Causes of Death meets in Paris.

New Haven Railway will restore

wages of employees to scale paid before the reduction due to the panic.

About 25,000 workmen employed in big iron and steel plants will have wages restored to the old figures.

Semi-centennial anniversary of the opening of the port of Yokohama to foreign commerce will be celebrated in Japan.

Suffragettes of the country will meet in Seattle for the annual convention of the National Equal Suffrage Association.

Special election will be held in Arkansas for the purpose of electing a chief justice and associate justice of the Supreme court.

Forty-second anniversary of the confederation of Canadian provinces will be celebrated throughout the Dominion.

New fiscal year will begin in all departments of the national government.

Millions of dollars will be distributed in dividends by many of the

largest railways and corporations of the country.

Increase in salary of the President of the United States from \$50,000 to \$75,000 becomes effective.

We are authorized to announce the name of Houston H. Aultman for Clerk of the City of Rushville, subject to the decision of the Republican nominating convention.

We are authorized to announce the name of Samuel G. Gregg, for re-nomination for Clerk of the city of Rushville subject to the decision of the Republican nominating convention.

CITY TREASURER.

We are authorized to announce that Melvin L. Moor is a candidate for City Treasurer, subject to the decision of the Republican city nominating convention.

FOR MAYOR.

We are authorized to announce the name of W. O. Headlee as a candidate for mayor of the city of Rushville, subject to the decision of the Republican city nominating convention.

It was principally the vote of Democratic Senators that changed the House bill which reduced nearly all the duties that it touched and gave the changes an upward direction.

Under the leadership of Mr. Aldrich the Democratic senators tore up the Denver platform and repudiated Cleveland, Bryan and every other leader of their party. This action will prevent the Democrats from saying anything on the tariff in the congressional campaign of 1910 or in the presidential canvass two years later. As senator Aldrich's auxiliaries the Democrats have given the tariff bill the ultra-protectionist bent which many of the duties show. Whatever kind of a bill the tariff measure turns out to be when the Conference Committee gets through with it, the Republican party will be responsible for it. But as all the advances in duties which will be in the bill have been placed there by Democratic votes, the Democrats will be prevented from making an issue out of it. They will be forced to keep silent about the measure. In fact, the tariff has thus been practically taken out of politics, for it is hard to see how a party issue can be made out of the tariff again, unless the Democrats take the high protectionist side, and attempt to make the Republicans declare for free trade. No Democratic national convention will ever be able to frame any tariff plank again like that of 1908 and of all the preceding presidential years. As a tenet in the Democratic creed free raw materials and free trade are as dead as slavery and secession.

What Our Neighbors Are Talking About

A RIPE OLD AGE.

(Cambridge City Tribune.)

George Weber, a farmer north of town, has a horse in daily service that is 40 years old and looks good for many more years. In his case breeding tells. His sire was Red Oak, a stallion well known in years past in the stable of the late William Bennett of Richmond. Red Oak's sire was Iron Cadmus, one of the most famous horses in the West in his day and winner of first prize as a general purpose horse at the State fair at Lafayette in 1852. Gen Sol Meredith was one of the judges who made the award.

HAS A BUSINESS HEAD.

(Greensburg News.)

Good business qualifications are not confined alone to the male sex. A young lady submitted the proposition this morning that if she was paying cash for a "promise to do something in the future" to a party that was within the law of enforcement of a contract, would she not be justifiable in demanding surety on the promise to pay? It certainly showed a safe and sane business idea.

TO UNDERGO OPERATION.

(Connersville Examiner.)

Mrs. Stella Burns of Eastern avenue was taken to the Fayette sanitarium Monday morning, where she will undergo a surgical operation. Mrs. Burns is the widow of the late William Burns, whose death occurred several weeks ago. It will be remembered the death of Mr. Burns and Mrs. Burns' mother, Mrs. Julia Cox, occurred a few days apart. Mrs. Burns has been in very ill health since the death of her husband and mother. Her little son, Roy Burns, will be cared for by Mr. and Mrs. Ed Wenger during his mother's absence from home. Dr. Sexton of Rushville, will perform the operation.

Corner Stone Laying

The following program has been arranged to take place next Sunday at 2:30 o'clock, when the cornerstone of the new Arlington Christian church will be laid:

Scripture reading, 1 Cor. 13—Rev. S. A. Morrow.

Prayer—Rev. R. W. Abberley.

Chorus, "America," led by the band.

Sketch of Arlington Congregation—Rev. Walter S. Smith.

Address—Rev. A. L. Orcutt.

List of articles, enumerated by Prof. J. L. Shauk and deposited by Mr. Nicholas Brown.

Laying of stone—Rev. Philander Weaver.

Song, "There is a Habitation"—Audience, led by the band.

Remarks by pastor, Rev. A. Burns.

Dismissal by prayer—Rev. A. A. Orcutt.

Selection by band.

Ten new subscribers were added to the Daily Republican yesterday. That's going some for a hot, sultry day.

DEMAND IS FOR CLEAN PICTURES

Public Sentiment is Decidedly Opposed to Those Tending to Deprave.

STANDARD WILL BE HIGHER

Board of Censorship Conducts Strict Inspection of All Films Produced by Manufacturers.

Public condemnation of the moving pictures which tend to have a bad moral effect or which depict scenes which would best be left alone, especially where the younger patrons of moving picture shows are concerned, has been taken cognizance of by the manufacturers and has resulted in a strict censorship being established to the end that only the best pictures be distributed.

For this purpose a Board of Censorship was provided and has taken upon itself the task of culling the pictures produced by the manufacturers. To date this Board of Censorship, composed of civic bodies and instituted by the Moving Picture Patents company, which controls over five thousand motion picture theaters in the United States, and ninety per cent of the film product of the world, has examined 200,000 feet of film. After the film has been approved it is released to the hundred licensed film exchanges throughout the country, who distribute it to the theaters. A reel of film averages about one thousand feet and includes one, two and sometimes three subjects. Eighteen new reels are released each week. At the average speed of operation, 14 separate pictures pass the eye every second that the machine is in motion. Thus the censors have seen about 46½ miles of film and at the rate of twenty minutes running time for each thousand feet, have looked upon 3,360,000,000 separate pictures.

Scenes depicting crime, brutality, depravity, sensuality or drunkenness are condemned and cut out.

At the last meeting only 24 feet out of 18,000 feet examined were discarded.

The manufacturers study the discarded sections and do not repeat similar errors. They have been quick to realize the real demand and are eager to supply it. It will be a matter of but a few weeks when they will know exactly what is regarded as good and what bad according to the high moral standard of the Censorship Board and will produce only such films, thus leaving no further work for the Board to do.

HENRY MULL FARM IS SOLD

REPORTERS ARE WELL CARED FOR

Wayne County Has Press Table in Court Room For Newspaper Men.

PAPERS ARE APPRECIATIVE

Every Courtesy is Accorded Newspaper Representatives at Richmond.

Down at Connersville and Rushville the newspapers are making a demand for a press table in the court room, says the Richmond Palladium. The papers claim their representatives are shown no courtesies. They are requested to find seats any place possible and often have to perch on the backs of chairs when the room is crowded. No such complaint emanates from the local newspaper writers. Possibly more courtesies are accorded the newspaper men of this city by the circuit court room attaches than at any other place in the city.

A splendid writing table is provided and the newspaper men find their places reserved for them by John Markley, the bailiff, whenever an important trial is in progress. The court is especially kind to the reporters and likewise the clerk and court stenographer. The latter often makes extra copies of legal documents for the help of the reporters. The judge permits copies of his instructions to juries, points in rulings he is to make and other written matter to be seen by the reporters, if they are crowded for time before he reads them in court. And the newspaper men appreciate it. The clerk, bailiff, sheriff or any other officials of the court will telephone late reports and in this manner render valuable assistance to reporters.

It is seldom an attorney refuses to give out information regarding cases in which he is appearing. He never does if he believes publication will in no wise injure his clients. Many times an attorney will inconvenience himself somewhat puzzled newswriter in the details of legal practice.

The other officials of the court house and their deputies are equally as big helps to the writers at those met oftenest in the court room. As the result of the good feeling which exists the newspaper men on the court house run are glad of the opportunities offered for intimate relations.

Lack of native fuel is the chief drawback to the development of Brazilian factories.

WHILE YOU ARE HOT THINK OF THE HORSE

Poor Beast Has a Pretty Hard Time of it at Best—Are Often Abused.

ROUGH TIME IN THE SUMMER

With the advent of the hot months it would be well to consider the horse, man's most faithful friend and most faithful servant.

The automobile is coming to free him, but the emancipation is not yet. The inhuman treatment of these animals common everywhere, and especially acute in summer, will cease when men no longer have use for the horse, when the kind invention has substituted tame lightning for his power.

Drivers and owners of horses should remember that these creatures are subject to the same sense of physical suffering as are men. They never complain and they work for their food.

When the horse is born into this whirling world he has before him a long road marked by unceasing toil. He is valued for the labor there is in his muscles, the strength in his sinews, the power in his chest—and he will have to work until one day he lies down and dies.

Have you ever thought of the situation of a horse or what he endures at the hands of men?

AMUSEMENTS

The Star-Grand has a good bill to offer tonight in the two subjects, "Manufacturing Steel Parts" and "A Faithful Old Horse." The first picture is educational and the second is a dramatic subject, showing the manner in which a faithful animal saves the life of his master. Miss Iva Brown will sing a new illustrated song.

Albert Earl, the well known lecturer, is pleasing large crowds at the Palace nightly with his Niagara Falls lecture. He will be at the Palace tonight and tomorrow night when he closes his engagement. The views of Mr. Earle are the finest complete set ever shown. The great American wonder, wrought by nature in its wonderful playful mood, are shown in all its weird beauty and grandeur. Human mind cannot conceive, human hand could never construct in one-half the beauty what nature has put into this natural wonder. The views are accompanied by a lecture that all should hear.

"The Wooden Indian" and "The Children of the Plains" are the subjects of the pictures to be shown at the Vaudet tonight. Both are excellent subjects and are made by the Vitagraph Film company. Good crowds saw all of the shows last night. The illustrated song, "I Give My Heart For One Loving Smile From You" will be sung.

The management of the Palace assures the public that the best entertainment of the season will be offered at their theater tonight. "The Girl Spy," a dramatic film full of human interest and tragic incidents will be shown. Earl Robertson will sing "Dear Old Dixie Land."

TAFT MEASURES NOW IN SENATE

End of Tariff Debate Gives
Them a Chance.

PROBABLE PROGRAM OUTLINED

If Senator Aldrich Follows His Desires and Takes a Trip On the Water, the Corporation and Income Tax Bills in the Senate Will Be in Charge of Senator Root—These Questions Were Introduced in the Senate Today.

Washington, June 29.—After seventy days of almost continuous debate the senate concluded its discussion of the schedules of the Payne-Aldrich tariff bill. Five minutes afterward the senate adjourned for the day to permit the slight preparation possible in so short a time for the debate on the corporation and income tax questions, which began soon after the senate convened this morning at 10 o'clock.

After adopting the conference report on the census bill, the house adjourned until Thursday. No other business, except the introduction of bills and resolutions was attempted.

The early adjournment afforded the tired senators a little much needed relaxation from long hours in the overheated senate chamber. Many of them embraced the opportunity to go to Fort Myer, for the purpose of witnessing the airship tests and others attended the baseball game at American League park. Senator Aldrich was among those who went to Fort Myer. He has been greatly interested in the flights made by the Wright brothers, and very much desired to see their machine in action.

Mr. Aldrich told some of his friends that he would take a few days off duty for a water trip of some kind if it develops that the discussion of the income tax is likely to be an extended one.

In this event Senator Flint will take charge of the bill, and Senator Root, who aided Attorney General Wickerham, in drafting the corporation tax amendment, will take charge of the measure. There has been some discussion of postponing the income tax and the corporation tax amendments until the next regular session, but this suggestion has not met with favor. Senate leaders take the position that a movement of this character would embarrass President Taft.

UBERO PLANTATION FIRE

Stockholders at Logansport Say They Are Done With Investment.

Logansport, Ind., June 29.—The Ubero plantation which was promoted by William B. Owen and Fred Borges, of this city, and was the means of fleecing thousands of people out of millions, making Owen a fugitive from justice and Borges an inmate of a Massachusetts prison, has gone up in smoke. Logansport stockholders in the United States Plantation company, which was organized after Owen fled and Borges was sent to prison, have received a letter from the Boston headquarters, saying a fire had wiped away everything that the company owned in Mexico; that nothing was saved but the bare ground.

The letter wishes to know whether the stockholders will advance more money and make another start or sell or lease the land. The local stockholders say they are done.

A Kansas Box Car Mystery.

Parsons, Kas., June 29.—The body of a man supposed to be Mack Nelson of Zanesville, O., was found near here in a box car of the Missouri, Kansas & Texas railroad. A note left by the man gave his name and also that of Hugh Nelson, Zanesville, O., his brother. A bottle of carbolic acid in one of Nelson's pockets caused the police to believe he might have committed suicide, but there is much mystery about the dead.

Chinese Christians Act.

Montreal, June 29.—The Chinese Christian Association of Montreal has taken steps to petition Wu Ting Fang, the Chinese ambassador at Washington to issue a formal demand on the Chinese residents of the United States and Canada to assist in the capture of Leon Ling, the suspected murderer of Elsie Sigel in New York.

Alleged Black Hand Arrested.

Memphis, Tenn., June 29.—Charged with writing black hand letters to Giovanni and Marie Santoni, from whom they demanded \$200 each, Salvadore Rossi and Mrs. Anna Gara, his mother-in-law, were arrested here. The Santonis have fled the city. The federal authorities claim they have unearthed well-laid scheme and other arrests are probable.

Bound Over For Trial.

Toledo, O., June 29.—At the conclusion of the preliminary hearing here Salvatore and Sebastian Lima and Salvator Rizzo, all of Marion, three members of the alleged black hand band, recently arrested, were bound over to the federal grand jury.

TERSE TELEGRAMS

La Guaira, Venezuela, has been officially certified free of bubonic plague.

The report of the National Ginner's Association gives the average condition of cotton up to June 24 as 75.6.

Thomas Farrell, colored, alleged murderer of Thomas Johnson at Parrott, W. Va., in July, 1908, has been arrested at Charleston, W. Va.

Ten deaths superinduced by the heat were reported at Chicago Monday, and numerous cases of heat prostration were cared for at the hospitals.

Arrangements are being completed for a national exposition for aerial craft, the first of its kind in America, to be held in Boston early next spring.

In accordance with the program of the liberal majority, the Cuban house of representatives passed the budget of \$33,800,000, abandoning all attempts to effect retrenchments.

Tuan Fang, viceroy of Nanking has been appointed viceroy of Chi Li province in succession to Yang Shih Siang, who died from apoplexy following charges of graft made against him.

Rapid progress of harvest operations in the Southwest prompted general selling of wheat on the Chicago board of trade resulting in sharp declines in the price of all deliveries. At the close the net losses were from 3@ 1/2c.

There is a well authenticated rumor that the government will not further press its charge against the American Sugar Refinery company of preventing the Pennsylvania Sugar Refining company, a competitor, from doing business.

PITTSBURG STRIKE DID NOT LAST LONG

Three Days of Traffic Tie Up Was Enough.

Pittsburg, June 29.—At 10:30 o'clock last night the street railway strike, which has cost the city of Pittsburg over \$200,000 in two days, was officially declared to be at an end. In the private offices of Mayor William A. McGee articles were signed by officials of the Pittsburg Railways company and an executive committee from the Amalgamated Association of Street and Electric Railway Employees, which will for years to come prevent another tie up of the 400 miles of street railway tracks in and about Greater Pittsburg and Allegheny county. The strike, it developed, was the outcome of but two points of difference between the car company and the motormen and conductors, one being the alleged neglect upon the part of the car company to shorten "swing runs," and the other of the refusal of these railway officials to reinstate discharged men without proper hearing.

Hunt is fifty-two years old, and for the last thirteen years has held charges in Illinois and Indiana. He is married and has grown children. In its investigation the special committee looked into the matter of Hunt's behavior in charges which he had held previously.

DEPOSED FROM HIGH POSITION

Indiana Preacher Stripped of His Sacred Office.

UNDULY FAMILIAR WITH WOMEN

After Formal Trial, Indianapolis Presbytery Deposes the Rev. William P. Hunt of Elizabethtown On

Charges That Had Created Scandal
in His Community—For Thirteen
Years Hunt Had Held Pastoral

Charges in Indiana and Illinois.

Indianapolis, June 29.—On charges that he had been guilty of conduct unbecoming a minister of the gospel in that he had been unduly familiar with certain women whose names were not made public, the Rev. William F. Hunt, pastor of the Presbyterian church at Elizabethtown, was deposed from the office of minister of the Presbyterian church at a meeting of the Indianapolis presbytery held here.

This action disqualifies Hunt as a minister in any church of the Presbyterian denomination. Several weeks ago rumors were started which involved Hunt and Miss Belah Remy, of Elizabethtown. Hunt finally requested an investigation by the presbytery, and a special committee was appointed to investigate the case. This committee reported Monday, and Hunt's dismissal as a minister followed.

Hunt is fifty-two years old, and for the last thirteen years has held charges in Illinois and Indiana. He is married and has grown children. In its investigation the special committee looked into the matter of Hunt's behavior in charges which he had held previously.

BARNARD OUT

Assistant Superintendent at Indiana Reformatory Resigns By Request.

Indianapolis, June 29.—W. H. Whittaker, superintendent of the Indiana reformatory at Jeffersonville, met Governor Marshall by appointment here and reported to him that he had asked for and received the resignation of Maurice F. Barnard, assistant superintendent of the institution, who went to the place from the state prison when Whittaker took charge under Governor Durbin. The report to the governor is understood to have been in considerable detail and to have corroborated certain complaints and rumors which have been received by the governor in the lot received against the management of the institution, although the governor declined to state that this was true.

After his conference with the governor, Mr. Whittaker said: "Certain reports had come to me concerning irregularities involving Mr. Barnard, and I laid these reports before Mr. Barnard, with the result that I asked for and received his resignation. It took effect at once and Mr. Barnard is no longer connected with the institution."

Concerning the nature of the irregularities Mr. Whittaker declined to make any statement.

HUNTING MISCREANTS

Evansville Strikers Keen On the Trail
of Dynamiters.

Evansville, Ind., June 29.—Although the police are bending every energy to the detection of the mysterious man who on two consecutive nights has made efforts to dynamite cars of the Evansville & Southern Indiana Traction Company, no success has attended their efforts.

Striking Carmen in their union meeting today adopted a resolution deplored the effort at violence and offering their aid to the police if it is needed to run down the dynamiters.

At the company offices there is a disposition not to attach much importance to the two efforts at dynamiting, although it is recognized that if the efforts are repeated they will have the effect of driving away patronage, which is now approaching half of normal.

Suicide of a Farmer.

Salem, Ind., June 29.—Joseph B. Hamilton, a farmer living east of Salem, committed suicide by shooting himself through the heart with a shotgun. He seated himself on a stump adjusted his gun and sprang the trigger with his toe. Before shooting himself, he dug his own grave in the family burying ground.

The Marrying Habit.

Terre Haute, Ind., June 29.—Daniel Rodenick, aged seventy, of St. Elmo, Ill., was at the county clerk's office for a license to marry the sixth time. Four wives were divorced and one died.

Cruel Father's Sentence.

Anderson, Ind., June 29.—For tying up his twelve-year-old boy with fish lines about the wrists, so that the lad's toes barely touched the floor, J. E. Lewark of this city was sentenced to jail for sixty days.

EVANSVILLE CARMEN RESIST INJUNCTION

They Will Carry Their Case to Higher Court.

Evansville, Ind., June 29.—That the temporary injunction against the striking street car men, issued by Judge C. A. Debruler, of the circuit court, last Tuesday, will be fought to finish is the announcement of Thos. W. Lindsey, attorney for the car men. Lindsey has made a motion before Judge Debruler to strike out about two-thirds of the paragraphs in the complaint of the Evansville & Southern Indiana Traction company. In case this motion is overruled Lindsey will then demand a trial of the case to see whether the temporary injunction against the car men shall be made permanent. As the circuit court will probably adjourn Wednesday or Thursday of this week for the summer, it is not likely the case will come up for trial until this fall some time and the strike may be over by that time.

Lindsey said: "The general impression is that the present injunction is a permanent one, but such is not the case. It stands until the whole matter has been settled by trial. If the circuit court decides against us and makes the injunction permanent, then we will take the matter to the appellate or supreme court of the state." The Central Labor Union is anxious to push the fight to the higher courts in order to establish a precedent.

COULDN'T ENDURE IT

Anticipation of a Whipping Drove Elwood Lad to Suicide.

Elwood, Ind., June 29.—Chester, the fourteen-year-old son of Mr. and Mrs. Joseph Robbins, committed suicide by drinking the contents of a four-ounce bottle of carbolic acid.

The lad had taken some small articles from his father's grocery wagon while his parents were at dinner, and while awaiting punishment, his father having gone for a switch, the boy took the acid from a cupboard in the kitchen. He then ran into the yard calling to his mother: "Oh, mother, I have killed myself," and fell dead.

Ran Into Open Switch.

Mansfield, O., June 29.—A. H. Cook, of Akron, O., was seriously injured and a dozen passengers were badly bruised when Erie passenger train No. 9, New York to Chicago, ran into an open switch at Sterling, near here. The train is one of the fastest on the line. It resumed its trip after a delay of two
